

STRIKE IS WORSE IN ST. PETERSBURG

Collisions Are Constantly Taking Place Between Strikers and the Troops.

MACHINE GUNS SWEEP THE NEVSKY PROSPECT

Alarming Extension of the Strike in the Outlying Provinces.

ST. PETERSBURG, Dec. 27, 11:35 p. m.—There is no further news from Moscow tonight. The Associated Press correspondent there succeeded in getting the St. Petersburg bureau by telephone this evening, but he had only uttered the words, "I am going to tell you a horrible story," when he was cut off.

Since then nothing has been heard from the correspondent. The Semenovskiy regiment of guards was dispatched to Moscow by train tonight. This is considered rather ominous.

ST. PETERSBURG, Dec. 27.—Minor collisions between the troops and strikers, of whom there are almost 50,000 still out, are taking place constantly in St. Petersburg. Cossack patrols are charging and dispersing workmen whenever they collect. The most serious affairs occurred at the Narva gate and on the Moskva canal, in which fifty persons were killed or wounded.

Guns Sweep Nevsky Prospect.

Automatic guns have been mounted on the bridge over the Fontanka canal, from which they can sweep Nevsky Prospect in either direction, and also both ways of the canal. The battery is enclosed in a collapsible shed, in order not to attract too much attention. Following the example of the authorities at Moscow, about half the police of St. Petersburg are now armed with rifles, and the unwelcome spectacle of policemen with bayonets on their rifles adds to the public alarm.

Alarming Extension Outside.

The news from the provinces today shows an alarming extension of the strike. Kokov, a fortress town of Lithuania, having about 80,000 inhabitants, seems absolutely in the hands of the Socialists, who have summoned the people to an armed rising, and the situation is so serious at Kremenok, South Russia, that the Government has declared martial law for the purpose of restoring peace and insuring the elections to the National Assembly.

Employees Dismissed.

The employees of the Southwestern railroad did not report for duty yesterday, and were dismissed. At Tiflis, Caucasus, peace has been patched up between the Muslims and Armenians. The strike, however, is almost general. The Social Democrats control the railways.

Have to Reconquer Baltics.

The situation is really far more serious in the Baltic provinces, Caucasus and other non-Russian provinces, where the entire population is hostile. In the case of the Baltic provinces it is realized that it may be necessary to practically reconquer them.

The first divisions of the first army corps, which belongs to St. Petersburg province, have begun to arrive here from Manchuria, but they are being dispatched to the Baltic provinces without stopping here.

Strikers Erect Barricades.

It is reported that the strikers this afternoon erected barricades in the vicinity of the Narva gate. The employees of the Risan-Ural railroad struck today. The Narshadnecy and half a dozen satirical papers have been suppressed and their offices sealed up by the police.

Remove Socialist Officials.

Interior Minister Durnovo has issued an order directing the removal of officials of the Ministry and Interior who are actively participating in the Socialist campaign. Among others are two editors of the official Russian news agency.

The Bourne Gazette announces that Prince Peter Kropotkin, the famous revolutionary leader, is on his way to St. Petersburg, being free under the amnesty decree to return to Russia.

STILL FIGHTING AT MOSCOW.

Women Revolutionists Display Ferocity as Well as Bravery.

ST. PETERSBURG, Dec. 27, 5 p. m.—A brief message from Moscow of today's date says that troops with artillery are pouring into the city, but that the situation has not greatly changed. The revolutionists hold portions of the Moscow-Hazan road. In Guerrilla Warfare.

Desultory firing is taking place. The military patrol is engaged in guerrilla warfare with the revolutionists, who are seeking refuge on the roofs of houses and in the narrow thoroughfares.

Another message from Moscow says

for Family Colds

A reliable Cough and Cold cure should be always in the house ready for use the moment the first symptoms appear. It is always easier, cheaper and better to check a cold in the very beginning.

It is safer, too.

Shiloh's Consumption Cure, the Lung Tonic, has been tested for thirty-three years, and tens of thousands of homes in the United States and Canada to-day are never without it.

"We are seven in family. We have bought many bottles of Shiloh's Consumption Cure. It is good and we would not be without it."—Mrs. Mary E. Apple, Covington, N.Y.

If it were anything but the best would this be so? Try it in your own family. If it does not cure you, get back all it cost you. We take all the chances. Neither you nor your dealer can lose. Isn't that fair? 25c. is the price. All dealers in medicine sell.

SHILOH

Sick Headache

is the result of arrested physiology of the stomach, liver or bowels, and is one of the first symptoms of constipation. Those who suffer with sick headache frequently resort to the use of headache powders, irritating cathartics, which, it is true, do relieve headache by dulling the sensations of the sympathetic nerves, but such medicines never remove the cause, and, to be candid, are really dangerous, death having been known to occur directly from their use.

Dr. Caldwell's Syrup Pepsin

(A LAXATIVE)
taken as directed when there is no headache will prevent it and put the organs of digestion in such a perfect condition as to forestall the suffering which attends this common and distressing affection.
Dr. Caldwell's Syrup Pepsin is a "corrective laxative" and not a "cathartic laxative." Throw away headache powders, pills and irritating purgatives. Buy a bottle of Dr. Caldwell's Syrup Pepsin to-day. It is pleasant to take and sure in effect.

All Druggists, 50c and \$1.00 Bottles.

PRESIDENT MORALES WOUNDED IN THE LEG

Cabinet Troops Encounter Him With Sixty Men; Exchange of Shots.

NEW YORK, Dec. 27.—A cable dispatch to the Herald from Puerto Plata says that Cabinet troops sent in pursuit of President Morales, who fled from San Domingo, the capital, Monday, encountered him with sixty men near San Cristobal and exchanged shots. The dispatch continues:

"There are rumors that Morales was wounded in the leg.
"Vice-President Casceres has dispatched a commission to Monte Cristi on the United States warship Dubuque to confer with Demetrio Rodriguez there.

Perez's Removal Ordered.

"M. Perez, Governor of Puerto Plata, four days ago received a telegram from President Morales that Vice-President Casceres had ordered Perez's removal. He advised Perez to resist, saying he had a combination with Demetrio Rodriguez and that the Monte Cristi forces would march against Santiago and attack Casceres. Perez resisted until Monday, when his troops refused to obey orders. Then he embarked for Monte Cristi.

THIS TRAIN IS SLOW.

Spain Claims Record for the Slowest Train in World.

M. Georges, writing in the French Journal, Le Sport, claims that after a long and contesting search he has run to earth the slowest train in the world. The record holder is a train which is chronicled on page 72 of the Guide Chien, and performs its slow journey in a country in which the speed of the train is by no means an uncommon thing. The train in question is the Santa Fe, which runs from Chao-San-Ana to Sana, and takes three and one-half hours to make the journey.

Just Like Walking.

Leaving the last named place at 6:25 a. m., the train takes a narrow road to San Roy at 8:20. Thus the average rate of speed of the train is under seven miles an hour, while from Chao-San-Ana to Sana, the speed is only three and three-fourths miles an hour. Commenting upon this the Railway Engineer (London) says: "At all events, serious railway accidents ought not to be feared by the travelers on this line, even if the train ran off the rails, the consequences would not be startlingly disastrous, and there is always the great advantage of such a train that if it runs off the rails, one, if a good walker, can catch it up at Sana."

END OF LOCOMOTIVES.

All Engines to the Scrap Heap in Five Years.

The Wall Street Journal quotes a writer from the Boston Bureau as saying: "The director of the Lake Shore states that in his opinion every steam locomotive at present in use is in the scrap heap in 1910. This explains in a large measure the recent activity in American locomotive work. Much of the use of the present stock of locomotives is General Electric, and at the most mounting General Electric interests will be elected to the presidency of the General Electric company. The importance of the electric power to the copper and steel trades is too tremendous to be overlooked. The electric power is the advantage of a close working agreement between these companies can be seen at a glance. The importance of the electric power to the copper and steel trades is too tremendous to be overlooked. The electric power is the advantage of a close working agreement between these companies can be seen at a glance.

NO REAL USE FOR PRESIDENT.

Anticipating Removal, Morales Fled to Revolutionists.

WASHINGTON, Dec. 27.—The State department today received a cable from San Domingo advising which throw much needed light on the revolutionary disturbances reported from there yesterday. Those were to the effect that the diplomatic corps had been notified by the Dominican Minister for Foreign Affairs, Gen. Tejera, that the President, Morales, having abandoned the capital, leaving the Government without an acting head, the Cabinet had called upon the Vice-President, Gen. Casceres, to take charge. Morales was anticipated failure of Morales to exercise his functions. The city of San Domingo was quiet and the Cabinet officers were exercising their functions without interruption.

DOESN'T LIKE GIFT IDEA

President Disapproves Wedding Present by Subscription.

WASHINGTON, Dec. 27.—A press dispatch from Baker City, Ore., published yesterday, announced that a recent subscription for a wedding present was opened over the country for the purpose of raising a sum which probably would aggregate \$50,000, to be presented to Miss Alice Roosevelt on the occasion of her marriage to Representative Nicholas Longworth. The President disapproves of the proposition, as indicated by the following statement issued from the White House today:

Statement Is Issued.

"The President's attention having been called to the dispatch from Baker City, Ore., to the effect that a subscription was about to be started for a wedding present for Miss Alice Roosevelt, the President stated that while he appreciated the evidence of good will, he hoped nothing of the kind would be undertaken. In fact, he wished particularly that the proposed work should not be done."

STEEL BOOKINGS HEAVY

Trade in Structural Steel Breaks All Records.

CLEVELAND, O., Dec. 27.—The Iron Trade Review tomorrow will say: "The Carnegie company this week booked the largest order in its history, in spite of the fact that it was unable to promise delivery on any of the orders before this or next week. Some instances orders will be delayed fully six months. The American Bridge company expects to book rough orders this week to make the total for a new record.

Anticipated Removal.

Finding himself without power because the cabinet resigned, the party, Morales anticipated removal by the party leaders and fled to the revolutionists with the intention of securing a sufficient force to re-enter the capital and drive out his enemies.

IS A MODERN CRUSOE

Sailor Cast Away Alone on Pearce Island.

VICTORIA, B. C., Dec. 27.—News was brought by the steamer Tees from Northern British Columbia of the Crusoe-like adventure of S. A. Lundberg, a Norwegian, who was cast away a month ago from a sloop in which he was voyaging from Portland canal to Kitimat. The sloop was wrecked on Pearce Island near Port Simpson and the seaman spent three weeks on the island, living on the North Coast limited. He was rescued by a steamer which was passing the island. He had been distressed by a tree by day and by fire by night, endeavoring vainly to attract attention and finally built a raft on which he reached Port Wilson, fifteen miles away, after a most trying voyage in which he narrowly escaped being washed from his raft. He was finally picked up by the Tees and taken to Hartley bay.

TRY TO HOLD UP TRAIN

Failing in This, Bandits Rob a Luckless Citizen.

SEATTLE, Wash., Dec. 27.—Seven masked men, each about five feet seven inches in height, wearing black masks and carrying a. Duckyman, held him to a tree and told him to get out of the way. None of the officers investigating the robbery secured the name of the Duckyman.

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if E. W. GROVER'S signature is on each box. 25c.

FOR POPE'S JUBILEE

Preparations Already Going on for Celebration in 1908

ROME, Dec. 27.—Preparations are already going on to celebrate in 1908 the jubilee of the Pope's ordination as a priest. Being asked if he desired the festivities to be similar to those witnessed on the occasion of the priesthood jubilee of the late Pope Leo, who was a national exhibition was held in the Vatican, the Pope answered: "Certainly not. I wish the celebration to maintain a strictly religious character."

Smoot Declares for Canteen.

Special to The Tribune.

LARAMIE, Wyo., Dec. 27.—Julius Merz, son of Prof. Henry Merz of the University of Wyoming, was today appointed Lieutenant of Constabulary in the Philippines and was ordered to report at San Francisco on January 11 to sail for Manila. Merz is now flagman on a passenger train on the Wyoming division of the Union Pacific. He was appointed for the civil line, being a graduate of the University of Wyoming, and Captain of the battalion of cadets. He is also a graduate of the Colorado School of Mines.

Change for Engineers.

A special from Omaha to a local paper this afternoon says that as a result of a conference between the boards of adjustment of the Brotherhood of Locomotive Engineers and the Locomotive Firemen of the Union Pacific, engineers between Cheyenne and Rawlins will now be between Cheyenne and Laramie instead of Laramie and Rawlins, as heretofore. For the past few years engineers and firemen have been running over both districts. Now they will be confined to the shorter districts, bringing a number of them back to Laramie as headquarters. The distance between Laramie and Cheyenne is fifty-seven miles and between Laramie and Rawlins 111 miles.

City Teacher Weds.

Miss Agnes Wright, teacher in the city school, and Herman B. Gold, of Wheatland, Wyo., were married here tonight and left for their ranch in Laramie county.

STORM DELAYS WORK ON WESTERN PACIFIC

Grading Delayed, but Freight-ing From Media and Grantsville Continues.

Work has practically been suspended on the division of the Western Pacific, the storm and exceedingly cold weather being the cause of the suspension. But few teams and men are at work and they are not employed on the grading operations, but on some general work around the camp.

Supplies Coming In.

The freighting of supplies from Media and Grantsville will continue, this in preparation for the coming winter. The work is being carried on with difficulty, but the suspension of other operations permits the use of additional teams for this work and thus facilitates the transportation.

Trains Make Good Time.

The snowstorm so far has not materially delayed the trains. Both the Media and Grantsville Limited arrived practically on time, but No. 1 on the Rio Grande was three hours late in arriving.

ASKS STORMS TO RESIGN

Indiana's Secretary of State Alleged to Be Short.

INDIANAPOLIS, Dec. 27.—It developed today that Gov. Hanly has asked for the resignation of Secretary of State Daniel E. Storms. This was after a two hours conference of Gov. Hanly, Attorney General Miller and Mr. Storms. It is not known whether or not Mr. Storms will resign. His resignation was given today, immediately after the conference, he would not say anything.

Storms Owed the State.

Mr. Storms, as has been stated, owed the State on October 1, when his quarterly settlement was due, the sum of \$7,000. To raise the amount he turned over to J. J. Ames, as trustee, securities on which \$4,000 was realized, and the balance was borrowed from friends of the Secretary of State. The next settlement is due January 1.

OFFICER IN DUEL WITH A NEGRO

Santa Fe Detective Shot Three Times by Man Whom He Arrested.

COLORED RECALCITRANT RIDDLED WITH BULLETS

Fusillade of Shots at Prescott When Man Is Taken Off Train.

PRESCOTT, Ariz., Dec. 27.—Special Officer Whitley of the Santa Fe railroad and Peter Bawa, a negro, were both seriously if not fatally wounded as the result of a shooting affray this afternoon in front of the depot at Ashfork, in which eighteen shots were exchanged. The negro was shot seven times and will probably die. Whitley was hit in the groin and leg and is now on a train en route to the Los Angeles hospital.

Trouble About His Fare.

The colored man was on a westbound train from Louisiana and had some dispute as to paying his fare from Williams to Ashfork. Upon arriving at the latter place Conductor McGinley asked Whitley, the company detective there, to remove him.

Negro Tries to Escape.

Trouble started when Whitley was bringing the negro off the car. The negro stepped off on the opposite side of the train and ran when Whitley opened fire, which the negro returned and a fusillade followed.

Officer Hit Third Time.

Whitley emptied his gun first and as he turned to run behind the depot to reload his weapon he was hit the third time, the bullet taking effect in the fleshy part of the thigh. He reloaded and returned and began shooting from under the train.

Negro Is Riddled.

The negro was riddled with bullets and fell, having received five bullets in the chest, one through the jaw and another in the knee.
